

SPILLFIX General Purpose Organic Absorbent

Spills can happen anywhere, Spill Station offer two types of General Purpose Absorbent so the absorbent you get is right for the job. Both are 100% natural, highly absorbent and free of harmful chemical residues.

SPILLFIX GENERAL PURPOSE ORGANIC ABSORBENT

- Contains no harmful dust to ensure a safe spill cleanup.
- Reduce clean up time and disposal costs by more than half.
- One 50L bag absorbs as much as 4 x 20kg bags of "kitty litter".
- A 50 litre bag will absorb up to 60 litres of spill.
- Made from an annually renewable resource.
- No chemical residues.
- EPA approved.
- Fast acting.

OA50L 50 Litre Bag SpillFix GP Absorbent

OA15L 15 Litre Bag SpillFix GP Absorbent

It is estimated that the surface area of SpillFix Absorbent is approximately 0.6ha (6000 square metres) in a single litre. The large surface area is created by the hollow channel structure. This is how it can retain up to 5 times its own weight in liquids.

MINERAL Sponge Granular Absorbent

Specifically sized zeolite granules with the ability to absorb up to 75% of its own weight of liquid. This allows Mineral Sponge to be used in a number of areas but predominantly as an absorbent for spills of oil/fuel and liquid chemicals.

MINERAL SPONGE GRANULAR ABSORBENT

- Will not break down and become slippery when wet.
- Available in workplace safe 15kg & 9kg bags.
- Safer than clay based granules.
- Liquids stay "locked inside".
- Absorbs up to 50% more than "kitty litter"
- Meets EPA requirements for solid waste disposal
