Justrite

Type 1 Safety Cans

Self-Closing, leakproof lid provides safety from spills.

Designed with a single spout for filling & pouring, the sealed lid features automatic positive-pressure relief that vents between 3 and 5 psig (0.2 & 0.35 bar) to guard against rupture or explosion.

Made from high-grade coated steel, each can is tested to guarantee 100% leakproof construction. The tough powder-coat finish resists chemicals & stands up to demands of rigorous use. Each JUSTRITE safety can is equipped with a stainless steel flame arrester which dissipates heat to stop flashback ignition. Cans up to 1 quart (1L) feature a trigger release handle, while larger capacities have a swinging handle to greatly ease carrying of heavier loads. Large label ID zone and swing-handle cans provides writing space to identify contents, department location, or individual user name.

Certified by FM, UL/ULC & TUV, Justrite safety cans also meet OSHA and NFPA requirements and come with a 10 year warranty.

Type 1 Safety Can funnel

Used to pour into smaller openings, the polypropylene funnel attaches to the spout neck of Type 1 safety cans sized 1 gallon (4 L) & larger. The two-position funnel folds down for when you fill or store the can, & stays up for when you pour. Large rounded bowl provides protection from spillage from splashing & spillage. Durable construction holds up to heavy use.

TRIGGER HANDLE TYPE 1 SAFETY CANS

Type II Accuflow Safety Cans

Vented design provides smooth, plug-free liquid flow

Go beyond protection & compliance with the added convenience of AccuFlow with safe-squeeze trigger for safe & controlled pouring.

Justrite patented manifold and proportional flow-control Safe-squeeze trigger provides you the means to regulate the flow rate when handling flammable liquids. Fill port with ergonomic lift lever makes filling easy. Flexible 9-in (229-mm) long metal hose spout helps control the pour into small openings.

Made from high-grade coated steel. Each can is pressured tested to ensure quality. The tough powder-coated finish resists chemicals & stands up to demands of rigorous use. Stainless steel flame arrestor – equipped in all Justrite safety cans – Pressure relief that vents between 3 & 5 PSIG (0.2 and 0.35 bar) to protect against explosion. Large label ID zone provides writing space to identify contents, department location, or individual user name. All can sizes have extra capacity for adding two-cycle engine oil or other additives.

Certified by FM, UL/ULC & TUV, Justrite safety cans also meet OSHA & NFPA Requirements & come with a 10-year warranty.

Easy to fill!

Ergonomic lift lever opens the self-closing spout wide for easy filling. A full-length stainless steel flame arrester dissipates heat & allows deeper, secure insertion of the nozzle when filling.

Justrite™

Safety Plunger Cans

Moisten cleaning cloths quickly and easily—smart-pump brings more liquid to the top and requires less time between refills

Dispense flammable liquids and solvents safely, without waste or exposure. Made of chemically resistant Ryton® and brass, the pump base is designed to leave less liquid in the bottom before having to refill.

Pushing down on the pump assembly fills the upper pan with liquid. Surplus liquid drains safely back into reservoir. The perforated upper pan serves as a flame arrester. Top rim has molded edge protector for smooth, trouble-free moistening.

SAFETY PLUNGER CANS					
Description & Capacity	Dimensions (OD x H)	Aprroved/LSTG Reg	Red Can Mod. No.	Yellow Can Mod. No.	Ship WT lb/kg

Justrite™

Bench Cans

An easy means of cleaning small parts in solvent, simply place work on spring-loaded, perforated dasher plate, press down & agitate, then release to return dasher to drain position. Plated steel dasher also works as an effective flame arrester to reduce the risk of fire flashback. Hinged cover minimizes evaporation losses & protected rim reduces the possibility of hand injury.

Safety Drum Funnels

Prevent spills when transferring flammable solvents, thinners, oils or plant wastes.

- Wide mouth opening with hinged, stay open lid
- Built-in flame arrester prevents fire intrusion
- Self-closing lid in case of fire
- Galvanized steel with durable exterior epoxy powder-coated finish

Safety transfer flammable liquids into a 30- or 55 gallon (110- or 200-L) drum using this 2.6 gallon (9.8-L) capacity safety funnel that fits into a 2-IN (51MM) bung. FM approved, EPA & OSHA Compliant.
